# House bill would protect fresh nursing graduates

**By Leticia Alvarado** **Staff Writer** **Special to the Philippine Daily Inquirer**

MANILA, Philippines — A bill in the House of Representatives would protect the rights of fresh nursing graduates by requiring employers to provide them with a written contract and a written policy on their employment.

The bill, which is sponsored by Rep. Raul Sison (PDP-Laban), is titled "An Act to Protect the Rights of Fresh Nursing Graduates by Requiring Employers to Provide Them with a Written Contract and a Written Policy on Their Employment."

Sison said the bill is necessary to protect the rights of fresh nursing graduates, who are often exploited by employers. He said the bill would require employers to provide fresh nursing graduates with a written contract that specifies their terms of employment, including their salary, benefits, and working conditions.

The bill would also require employers to provide fresh nursing graduates with a written policy on their employment, which would include information on their rights and responsibilities as employees.

## The Facts About the World Bank Procurement Issue

On April 21, 1977, the Manila Daily Inquirer reported the case of the National Road Improvement Management Program Phase I (NRIMP-1) in a front-page article.

On March 25, 1976, the "Inquirer" published an editorial article on the procurement of goods and services for the NRIMP-1. The editorial stated that the procurement process was "not fair and equitable" and that the "Inquirer" was "not satisfied" with the results of the procurement process.

### FACT #1: All DPWH actions relative to NRIMP-1 comply with World Bank procurement requirements.

### FACT #2: Republic Act 5184 or the Government Procurement Reform Act which sets the Approved Budget for the Contract (ABC) as the limit of award for all locally-funded projects is NOT applicable on foreign-funded projects according to the Supreme Court decision.

On January 25, 1978, the Supreme Court ruled that the ABC is not applicable to foreign-funded projects.

The DPWH has followed the ABC for the locally-funded projects. The DPWH has followed the ABC for the locally-funded projects.

During the bidding process for the NRIMP-1, the DPWH has followed the ABC for the locally-funded projects. The DPWH has followed the ABC for the locally-funded projects.

# Legislative changes sought to spur BPO growth

By Pamela J. Kelly **BAPF pushes for passage of privacy law, creation of new dep't**

MANILA, Philippines—The Business Process Association of the Philippines (BAPF) is pushing for legislative changes to spur the growth of the business process outsourcing (BPO) industry. The association is advocating for the passage of a privacy law and the creation of a new department to oversee the industry.

BAPF President and CEO, Mr. [Name], said that the industry is currently facing challenges due to the lack of a regulatory framework. He emphasized the need for a privacy law to protect the personal information of customers and to build trust in the industry.

Additionally, BAPF is advocating for the creation of a new department, likely the Department of Trade and Industry (DTI), to oversee the BPO industry. This would provide a dedicated regulatory body to address the specific needs and challenges of the sector.

The BPO industry has experienced significant growth in recent years, becoming a major contributor to the Philippine economy. However, the lack of a regulatory framework has hindered its potential for further expansion.

By implementing a privacy law and establishing a dedicated regulatory body, the BPO industry can ensure the highest standards of service and data protection. This will not only attract more international clients but also create a more professional and trustworthy industry environment.

## Demand for affordable housing resilient despite crisis, firm says

By [Name] **Builder says demand for affordable housing remains strong despite economic challenges**

MANILA, Philippines—Despite the current economic challenges, the demand for affordable housing remains resilient, according to a leading housing developer. The firm reports that while there is a slowdown in the overall real estate market, the need for affordable housing units continues to grow.

The firm's latest project, a large-scale residential development, has received strong interest from potential buyers. This indicates that the market for affordable housing is still active and growing, even in the face of economic uncertainty.

The firm plans to continue its efforts to develop and provide affordable housing units to meet the needs of the growing population in Manila and other urban centers.
